

Patient Name : Mrs. RAJDEVI  
Age : 65Y      Sex : Female  
Ref. By : DR.S.PRASAD,G.A.M.S  
Address : PATKAULIYA

Reg. No : SP-2026-0149  
Collection Date : 19-06-2026  
Reporting Date : 19-06-2026

Test	Flag	Result	Unit	Normal Range
<b>BIOCHEMISTRY</b>				
Alanine Transaminase (SGPT/ALT)		29	U/L	5-40

**Comment**

Alanine Transaminase (ALT/SGPT) is an enzyme found mainly in the liver. It helps the body process proteins and amino acids. When liver cells are damaged due to conditions such as hepatitis, fatty liver disease, alcohol-related liver injury, or certain medications, ALT levels in the blood can rise. Therefore, the ALT (SGPT) test is commonly used to assess liver health and detect liver damage. Normal ranges vary slightly between laboratories.
